TIPS FOR THE BEST PAINT RESULT

Applying Paracem® Deco Ultra Clean is as easy as 1, 2, 3. This paint easily adheres to many surfaces (paste, gypsum board, brick, concrete, fibreglass, etc.) and does not tend to develop stripes.

We highly recommend applying undiluted using a synthetic brush or roller. A 10-mm-thick microfibre roller gives excellent results. The paint can be washed entirely after seven days. Is the job done? You can clean the tools using water

SAY GOODBYE TO DIRT & STAINS

Matt paints create a sense of peace within your interior and hides imperfections, but it is usually only partially washable or not at all. This is precisely where Paracem® Deco Ultra Clean changes the game. Frequent soiling doesn't stand a chance anymore in kids' rooms, kitchens, hallways and more.

Dampen a cotton cloth or soft chamois cloth using a bit of lukewarm water and detergent; wipe for a little bit and you're done! Plus, the paint won't get shiny on you. For more serious soiling, we recommend using Mathys® Multi Cleaner, an incredibly strong, concentrated, environmentally friendly cleaner.

Consult our technical datasheet on www.mathyspaints.eu for more info and cleaning tips.

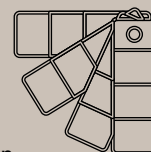

MATTE PAINT CAN BE WASHABLE TOO, AS PARACEM® DECO ULTRA CLEAN PROVES!

1 - 4 - 10 L
